HOME
PAK

Green Product

HomePAKs are
environmentally sound
made from recycled materials.

Put your peas in our pod.

HomePAK is the newest portable self-storage solution that offers the most convenient system for storing your belongings at your location.

A unit (or more if you need them) will be delivered to your home or office and placed where you want it, when you want it.

Think of it as self storage without the truck. We deliver the HomePAK to you. You load it and lock it. And when you're all done packing it up, give us a call, and our friendly drivers will pick up your HomePAK and transport it to our super-secure, temperature-controlled warehouse where it will be stored until you need it again. If you need extra storage at your location for a short or long term, keep the HomePAK as long as you wish.

Making a local move?

Schedule a HomePAK delivery to your house and take your time loading the container. When it's full, call Arnoff Moving & Storage to transport it directly to your new home. Unpack it whenever you're ready. Your belongings are stored safe and sound right outside your door, and you can take your time unpacking! It's as simple as that.

The units are weatherproof and secure — the key to the lock remains in your hands until the unit is returned to us.
